Web Development Skills

<1 year: JavaScript, HTML5, CSS3, BootStrap, jQuery, React, Github, AJAX, Node.js, Axios

Recent Web Projects

Bandify · https://camerong88.github.io/Bandify/ · JS, JQuery, AJAX, BootStrap

- Bandify is a webpage I contributed to that allows you to stream music from your favorite artists or album using Deezer's api while simultaneously giving you quick access to artist events and social media from BandsinTown's api.

WeatherHub · https://camerong88.github.io/WeatherHub/ CSS3, JS, JQuery, AJAX, BootStrap

- WeatherHub is a single-page website I made to pull current weather data and 5-day forecast for a searched city from the OpenWeatherMap api.

Education

2014-2017 · Hillsborough CC/Univ. Of South Florida · Tampa, FL

- Completed general studies courses and studied Microbiology at USF (+3.0 GPA).

2020 · Univ. Of Central Florida: Coding Boot Camp · Online

- Extensively studied and practiced responsive web design, and full-stack development.
- Built multiple single-page websites and web applications.

Work Experience

Nov 2016- Oct 2018 · Server-Trainer · Black Rock Bar & Grill Brandon, FL

- Provided a friendly and sophisticated dining experience by listening to understand the customer's needs and acting to promptly meet those needs.
- Educated new trainees on the menu, steak terminology and server operations.

Jan 2017 – July 2020 · Ride-share/Delivery Driver · Uber + UberEats

- Facilitated the safe and timely transportation of customers to their destination (4.93/5 customer rating), ensured accuracy of order and delivered customer goods to desired location (98% customer satisfaction).
